

DEPARTMENT OF COMPUTER SCIENCE &amp; ENGINEERING

## Head Message

Prof Y N Singh

I'm pleased to inform you that department of computer science & engineering is publishing second issue of technical magazine **KRITIZINE** from session 2019 – 2020. The students of CSED@IET-L are talented and very energetic and the KRITIZINE has added their thinking, interest, creativity and constant efforts. The efforts of coordinating team about innovative contents and ideas related to CS/IT are appreciable. I wish them all success and hope that team of KRITIZINE bring more laurels to the department and Institute on the whole.

## About the Department

Department of Computer Science & Engineering (CSE) at Institute of Engineering & Technology Lucknow was started since its establishment in 1984 and became the place of top-ranking students of state entrance examination (UPSEE) over past decades. The department of CSE @IET is a premier and dynamic center for imparting quality education and known for excellence in teaching in the field of computer science in the state of Uttar Pradesh.

The department offers B. Tech. programme in Computer Science & Engineering and PhD

programme in Computer Science & Engineering. The department is a center for advanced studies, keeping pace with the latest in the rapidly changing environment of information technology. It has been a consistent endeavour of the department to adapt itself and its programmers to mirror the requirements of the constantly evolving IT environment in India and abroad.

The curriculum of B. Tech. programme in Computer Science & Engineering comprehensively covers the topics related to computing and information technology with an emphasis on practical learning. The educational ecosystem and up-to-date course structure prepares our students adaptive with the latest developments in computer science & engineering.

The faculty members of the department of CSE @IET hold strong academic credentials and delivers expert classroom lectures supported from their strong research experience. The department has state-of-the-art infrastructure and computing laboratories. All laboratories are facilitated by high-speed Ethernet and wireless networks.
